DAUFUSKIE ISLAND VISION

Daufuskie is a pristine sea island with extraordinary natural, cultural and historic resources. Our vision is to support balanced, mindful growth that provides a sustainable economy, while preserving our unique and diverse community character, rural sense of place, and isolated island lifestyle. While recognizing property owners' rights to reasonable use of their land, we will minimize the threat to our natural environment, cultural and historic resources and ensure the preservation of Daufuskie Island's natural beauty.
